Professional Smart & Healthy Air Solutions Provider

## OUR VISION

To be a globally recognized expert in smart and healthy air solutions.

## OUR MISSION

Through our innovation in smart control, air quality, heating & cooling performance, humidity management and service to create home ecosystem and mobile ecosystem to ensure comfort made easier.

# Haier BRAND STORY

---

The Internet era is a diverse and unconventional time, where one-size-fits-all products or solutions are simply not enough. Consumers want to be treated as individuals and respected for who they are.

Everyone wants their unique lifestyle acknowledged. That is why Haier listens closely to you in order to gain genuine understanding of what is going on in your life and what is on your mind. So each of you can get the smart home experience you deserve: be it simple, sophisticated, organized and enjoyable.

As a worldwide industry leader, Haier innovates beyond products and solutions, and turns the organization into a wholly connected platform. In doing so, internal and external resources are connected quickly and easily. We believe only by doing so, we can best meet our consumers' expectations in this rapidly evolving world.

Be part of the Haier network, create new possibilities.

# Haier GLOBAL POSITION

## BRANDZ TOP 100 MOST VALUABLE GLOBAL BRANDS

Haier, The world's only IoT ecosystem brand on the list for 4 consecutive years.

## EUROMONITOR INTERNATIONAL RANKING

Haier has been the No.1 brand of major household appliances in the world in retail sales for consecutive 14 years(2008-2022).

## FORTUNE'S MOST ADMIRED COMPANIES

Feb 2, 2022, Haier Smart Home was awarded the Fortune's most admired companies in the world and is the only appliance company of the industry to receive this award.

## FORTUNE GLOBAL 500

In 2022, As a subsidiary of Haier group, Haier Smart Home was once again listed on the Fortune Global 500.

## FORTUNE CHINA ESG INFLUENCE LIST

Haier Smart Home was included in the 2022 Fortune China ESG Influence List.

## BEST EMPLOYER OF THE YEAR BY FORBES CHINA

Haier was selected as 2022 Forbes Best Employer in China.

# Haier GLOBAL NETWORK

Haier currently has 10+N R&D centres, 35 industrial parks, 138 manufacturing centres and 126 marketing centres around the world, reaching out to more than 200 countries and regions and serving 1 billion user households. Haier owns 7 major household appliance brands globally: Haier, Casarte, Leader, AQUA, Fisher&Paykel, GE Appliances and Candy. They constitute Haier's global brand cluster that provides the best experience for different consumer groups in different regions across the globe.

# Haier AC MILESTONES

Founded in Qingdao, China.

**1984**

Launched China's first inverter AC.

**1993**

Acquired ISO9001 certification.

**1994**

Launched China's full range of light commercial.

**1996**

Started exporting AC to the U.S.

**1999**

Haier established factory in Pakistan.

**2001**

Established new AC R&D center.

**2014**

Established IoT-based AC factory.

**2015**

Acquired GE Appliances.

**2016**

Acquired Candy, and launched Jade series.

**2018**

Haier launched UVC.

**2021**

Haier launched UVC Pro.

**2022**

7-running-year global No.1 connected AC brand.

**2023**

Haier

# ULTIMATE HEALTH

## Maintain AC Clean

Self-Clean 56°C Steri-Clean Easy to Clean

## Deliver Healthy Air

UVC Pro Sterilization UVC Sterilization Puri-Clean SUPER IFD Sterilization Nano-Aqua Sterilization

Air pollution is becoming widespread in emerging economies. Long exposure to polluted air threatens our health. When you breathe, pollutants such as PM2.5 are inhaled. They cause discomfort, and may lead to lung or heart disease. Besides, there are numerous allergic asthma sufferers worldwide who are vulnerable to pollen, mold spores, smoke, gases and chemicals. They need cleaner air to have the peace of mind. In 2020, the Covid-19 pandemic has brought large-scale disruption to our lives. The healthy air for us to breathe becomes more important than ever before.

Haier has been dedicated to healthy air innovations over the past years. With our advanced technologies, we keep our air conditioner clean all the time, and ensure the airflow blowing out is always healthy for us.

# UVC PRO STERILIZATION

Healthy Air Healthy Living

Haier UVC Pro inhibits bacteria and viruses in the air, purifies the air by emitting UV-C band ray and generating positive and negative ions group.

## TECHNOLOGY

Haier UVC Pro can emit UVC-band ray at air inlet, the direct exposure of UVC-C band ray destroys the DNA and RNA structure of bacteria and viruses in the air when it goes through the air inlet. UVC Pro can also stimulate H<sub>2</sub>O nano and O<sub>2</sub> in the air, generates positive and negative ions group which purify the air.

### UVC Wavelength

UVC is the shorter, and more energetic wavelength ranging from 200-280nm of the sunlight spectrum. It is particularly efficient in destroying genetic material.

### Plasma

UV lamp can emit specific wavelength which stimulates H<sub>2</sub>O nano and O<sub>2</sub> in the air and generates positive and negative ions group, which bonds with bacteria and viruses to inhibit them.

### Powerful UV Lamp

The New UVC Pro lamp emits rays near the air inlet, killing the airborne hazards passing through.

### Safety Lock

When the front panel is open, the air conditioner will automatically turn off the UVC lights. It avoids potential risks that human bodies get directly exposed.

## BENEFIT

Haier UVC Pro can sterilize both indoor unit and indoor air with UVC-band ray, making indoor unit clean and delivering clean air.

### Safe, Reliable Operation

Eliminates the airborne hazards, with no harmful chemicals, no residuals, and no burden to the environment.

### Healthier Room Air

Haier UVC Pro can sterilize both indoor unit and indoor air with UVC ray and plasma, making indoor unit clean and delivering clean air.

### Efficient Sterilization

Haier UVC Pro sterilization utilizes the wavelength between 265-275 nm, which is stronger in destroying the invisible pollutants in the air.

**99.991%**

It is tested and proven to be effective in inhibiting Covid-19 virus with 99.991% efficiency.

Certified by Texcell. An inactivation and reduction titer of more 4.08Log(99.991%) of Sars-Cov-2 in 24-hours was demonstrated on the device in 6.7m³ test lab.

# UVC STERILIZATION

Healthy Air Healthy Living

Haier air conditioner is equipped with UVC GENERATOR module. The module is tested and proven to be effective in inhibiting Covid-19 virus with up to 99.998% efficiency.\*

## TECHNOLOGY

### UVC Wavelength

UVC is the shorter, and more energetic wavelength ranging from 200-280nm of the sunlight spectrum. It is particularly efficient in destroying genetic material.

### Built-in UV Lights

The UV lights emit rays near the air inlet where room air circulates into the AC. The airborne hazards are instantly get killed when passes through the area.

### Safety Lock

When the front panel is open, the air conditioner will automatically turn off the UVC lights. It avoids potential risks that human bodies get directly exposed.

## BENEFIT

### Safe, Reliable Operation

It eliminates the airborne hazards, with no harmful chemicals, no residuals, and no burden to the environment.

### Efficient Sterilization

Haier UVC sterilization utilizes the wavelength between 265-275 nm, which is stronger in destroying the invisible pollutants in the air.

**99.998%**

It is tested and proven to be effective in inhibiting Covid-19 virus with 99.998% efficiency.

**Texcell  
Certification\***

\*The UVC GENERATOR installed on Haier air conditioners has the function of inactivating and inhibiting Covid-19 virus based on the STUDY OF VALIDATION OF THE EFFICIENCY OF UVC GENERATOR ON SARS-COV-2 BY NO GLP VIRUS CLEARANCE STUDY (FIO) carried out by Texcell, a global contract research organization. The Test report shows that an inactivation and reduction titer of 4.79 (99.998%) log of Sars-Cov-2 in 1 hour was demonstrated in a 45L box.

# SELF-CLEAN

Always Clean Always Cool

Freezes the evaporator with moisture in the air, and removes away dirt in rapid melting, ensuring the air that comes out of air conditioners is always healthy for you.

## TECHNOLOGY

Dirt accumulates on the evaporator during operation. If not cleaned regularly, the dirt leads to the growth of mold and bacteria that compromise the air quality coming through the air conditioners. It also reduces air conditioning efficiency by 15-30%.

### Cold Expansion

Frost on the evaporator/condenser generates strong cold expansion force that can easily peel off dirt on the surface.

### Express Washing

Hydrophilic aluminum with smaller angle helps increase water drainage efficiency by 20%.

### Anti-bacteria

The coating on the aluminum contains silver nanoparticles that kill bacteria and inhibit their growth >99.99% efficiency.

## BENEFIT

### Cleaner, More Efficient Air

The technology kills bacteria and keeps the evaporator clean. It enables the AC to work at full cooling capacity and deliver cleaner air.

### Saving Cleaning Cost

Manual cleaning from service technicians costs a lot of money. It allows you to clean your AC regularly with a simple tap on your controller.

**TUV Certification\***

\*The Verification on Cooling Expansion Rate & Defrosting Residual Rate of Air Conditioner with Self-Cleaning Technology is tested on model AS09FBHRA by TÜV Rheinland. The test report shows that the cooling expansion rate is 98.2% and defrosting residual rate is 0%.

\*Haier has been the world's No.1 Self-Clean air conditioner brand for 4 years in a row with a market share of over 37% (Data from Euromonitor International as of Feb. 2022)

# TECHNOLOGY

## Smart Frequency Control

It intelligently adjusts the compressor frequency to control the coil temperature and then maintains the evaporator at 56°C high temperature.

## High Temperature Sterilization

Almost no bacteria and viruses can survive at 56°C for 30 minutes based on latest research. Once the heating process is done, the evaporator is cooled down instantly to achieve better sterilization performance.

# 56°C STERI-CLEAN

Breathe Clean Breathe Fresh

Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

## SGS Certification\*

\*The Verification of 56°C Sterilization with a Duration of 30 Minutes is tested on model AS09-JB1PRA/1U09MEJRA by SGS. The test report shows that the measured temperature of evaporator surface and heat exchanger is higher than 56°C for over 30 minutes.

# BENEFIT

## Delivering Healthier Air

56°C high temperature sterilization dries the components inside, and kills bacteria and viruses, ensuring healthy air coming out of air conditioner.

## Easy-to-Operate

The function is available via Haier Air 2 app, and you can turn it on with just a simple tap.

# PURI-CLEAN

Come Clean Stay Pure

Utilizes advanced IFD purification filter to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9% while enjoying comfortable air conditioning.

## TECHNOLOGY

### Smart Air Quality Sensor

High definition sensor installed in the air inlet detects dust and allergens in the air and displays real-time information on the screen. When the air quality is good, the indicator is green. When poor, it turns red to alert.

### Air Pure Function

HEPA

releases a large amount of copper ions and silver ions to inhibit bacteria and viruses.

IFD

The advanced filter mesh comprises of 6818 ventilation holes with contact surface as large as 8180cm<sup>2</sup>. When the air purification is turned on, static electricity is generated to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9%.

## BENEFIT

\*The Verification on Air Purification Performance of Air Conditioner with IFD Purify Technology is tested on model AS18JD4HRA by TUV Rheinland. The test report shows that the CADR is 300m<sup>3</sup>/h.

HEPA

### Efficient Sterilization

The Super HEPA uses PWF fiber and bipolar ions, which can effectively remove harmful particles such as bacteria and viruses in the air.

### Cleaner Room Air

It detects and displays the air quality of the room in real time to make the clean air visible, achieving professional purification.

IFD

### Powerful Air Purification

The CADR (clean air delivery rate) is up to 300m<sup>3</sup>/h on 18K models. It enables the air conditioner to clean the whole room air within 15 minutes, which is the same performance as professional air purifier.

### Convertible Design

The IFD filter is in the front of evaporator under normal conditions. When the room air quality is identified as poor and air purification is switched on, the IFD filter moves upwards to cover the whole air inlet.

BV\*\*\*  
Certification

TUV\*/Intertek\*\*  
Certification

\*The Verification on Air Purification Performance of Air Conditioner with IFD Purify Technology is tested on model AS18JD4HRA by TUV Rheinland. The test report shows that the CADR is 300m<sup>3</sup>/h.  
\*\*The Purifier Efficiency Test Report is tested on model AS35J6L6RA by Intertek. The test report shows that the air conditioner scores 99.9% of removing smoke, dust and pollen. The CADR value is up to 300m<sup>3</sup>/h (18K) tested by BV.

# EASY TO CLEAN

Visible Cleaness Visible Health

Marks another monumental step in the upgrade of healthy air innovations that ensures clean airflow out of air conditioner by allowing you to easily take out fan and motor for deep cleaning.

## TECHNOLOGY

### Easy to Disassemble

#### One Screw

Snap-in design, less screws, less trouble  
Snap-in clasp design, concealed screws with exquisite appearance

#### Easy Connected Waterpipe

Convenient disassembly of waterpipe design  
Easy connected design with left/right installation place  
Easy to plug in & out

#### Easy Connected Terminals

Quick disassembly  
Only 3 terminals

### SGS Certification\*

## BENEFIT

#### Keeping AC Cleaning

Regular cleaning of the core components including fan and air duct is crucial to maintaining the AC clean.

#### Saving Cleaning Cost

The innovative design improves the disassembly of the AC dramatically. It saves a lot of time and money if you do it on your own.

#### Visible Health

The healthy is visible because the easy-to-clean design ensures the air conditioner itself is clean and the air out of it is clean and healthy.

\*The Verification of 5-star Easy-to-Clean Compliance is tested on QI-HKT J09230-2021 standard by SGS. The test report shows that the star rating of Haier Expert series air conditioner (refer to the test report for detailed model numbers) on the PCB disassembly, motor disassembly, and fan disassembly is 5-star which is the highest of the rating scale.

# TECHNOLOGY

## Powerful Static Electricity Absorption

IFD filters owe their exceptional efficiency to the creation of a powerful electrical attraction between airborne particles and the interior surfaces of the filter. To achieve this, the particles are given a positive or negative charge before they enter the filter.

**99.99%**  
captures of airborne particles

## Efficient Sterilization

IFD filter is highly effective at capturing and trapping microbes such as germs, bacteria, viruses, mold, etc. It captures up to 99.99% of airborne particles that are 0.3 microns in diameter, which is smaller than virtually all viruses, bacteria and spores.

**0.3** microns

# SUPER IFD STERILIZATION

It's A Breath Of Fresh Air

Absorbs and kills viruses and bacteria in field with efficiency up to 99%.

# BENEFIT

## Easy to Clean

The IFD filter is in detachable design. The filter is dirty after long-time usage. It can be reused after washing instead of costing extra money to buy a new one.

## Optional Filters

Besides advanced IFD filter, we provide a wide variety of powerful filters with specific functions for you to choose the most ideal one that best fits your needs.

## SGS Certification\*

\* The Bacterial Removal Rate of *Staphylococcus Albicans* and *Escherichia Coli* is tested on model AS25JBHRA-W by SGS. The test report shows that the bacterial elimination rate is up to 99.3%.

# NANO-AQUA STERILIZATION

Refreshing Air Refreshing Life

Imagine that you are in the forest, and then take a deep breath. That's refreshing and cheerful. Haier Nano-Aqua Sterilization technology revives that feeling even when you stay indoors.

## TECHNOLOGY

### Highly Efficient Ionizer

Water molecular in the air is ionized into 60mn positive and negative ions in the size of 5-20nm and being released into the air. The ionization draws out radicals significantly in the moisture air to further interact with odorous substance, so it can restore a fresh environment.

Meanwhile, these ions bond together with bacteria and viruses to inhibit the spread of airborne hazards with efficiency up to 97.54%.

## BENEFIT

### Delivering Refreshing Air

Nano-aqua sterilization increases negative ions in the air that significantly improves the air quality to ensure your fresh breath.

### Keeping Comfortable Humidity

The ions effectively retains your skin moisture to keep your skin smooth and glowing. It gives your better way to enjoy higher quality of life.

**Intertek Certification\***

\*The Bacteria Resistant Efficiency Testing is tested on model HSU-07HNF303/R2-G by Intertek. The test reports shows that the anti-bacteria efficiency of nano-aqua sterilization is up to 97.54%.

**60<sub>mn</sub>**  
Positive and negative ions

**5-20<sub>nm</sub>**

# ULTIMATE SMART

Voice Control

WiFi Control

Recent years have seen the rapid development of telecommunication and IoT technology. Now there is few you can't do with just simple taps of your fingers on your smartphones. Smart appliances become the new household trend where Haier has taken the lead. With smart functions, you can customize the services on your needs, control your air conditioner from anywhere and anytime, and so much more.

Since earlier exporting to Italy in 2013, we are selling smart air conditioners to over 130 countries and regions, with sales volume exceeding 25mn units globally. Haier has been the world's No.1 brand of connected air conditioner for 6 consecutive years. In terms of volume sales in 2021, the market share is over 33%, according to Euromonitor International, a world's leading market research agency.

## TECHNOLOGY

### External Voice Module

The socket-shaped module bridges you and your air conditioner via your voice. Just talk to it and get things done when you don't find your remote controller.

### Third-Party Speakers

Google Assistant and Amazon Alexa allow you to interact with your air conditioner in a more intuitive way using voice.

# VOICE CONTROL

## Listen to Your Needs

Even though you have the control in the palm of your hand, you don't always have a hand to spare. With Haier smart air conditioners, you will be able to have hands-free voice control.

## BENEFIT

### Intuitively Hands-Free Control

Here are some of the ways you talk to Alexa to control your Haier smart air conditioners.

Turn on/off the air conditioner.

What mode is the air conditioner set?

Set the air conditioner to heat/cool/smart mode.

Is the air conditioner on/off?

What is the temperature set on air conditioner?

Set the air conditioner to 20 degree.

# WI-FI CONTROL

Control Your Air Conditioner Anytime Anywhere

Imagine when you're hurrying back to your home in hot summer, or lying on the sofa at home but cannot find the remote controller. What you want is easily accessible control to your air conditioner from anywhere and anytime with Haier Smart Air 2 app on your phone or tablet.

## TECHNOLOGY

### WiFi Module

## BENEFIT

### Customized Service

Here are some of the functions you can enjoy with "hOn" app.

- |  |  |  |  |  |   |
|--|--|--|--|--|---|
|  | <p><b>Group Control</b><br/>Control multiple units with only one smart phone in hand.</p>    |  | <p><b>Smart Reminder</b><br/>Sends regular notifications to user to clean the filter mesh.</p>       |  | <p><b>Weekly Timer</b><br/>Sets temperature and fan speed for the week to come.</p> |

# ULTIMATE POWER

ECO Mode

Fast Binding

Green Refrigerant

Hyper PCB

Inverter Plus

Anti-Corrosion

Haier advanced inverter technology provides powerful, superior air conditioning to users whether it's in scorching summer or freezing winter.

In Northern Europe and North America, we have low ambient heating solution that enables air conditioner to run air conditioner at  $-35^{\circ}\text{C}$ .

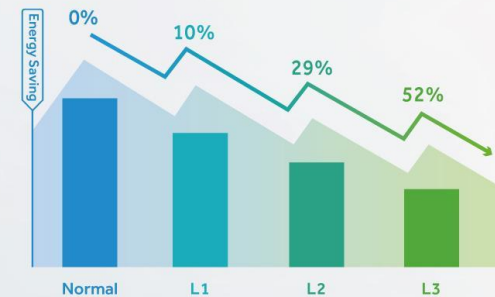

# ECO MODE

## What is it

A technology to reduce power consumption, up to 52% electricity can be saved compared with normal mode.

up to **52%** electricity can be saved

## How to use

Press the "ECO" button with Remote Controller

- ① Press once, reach ECO 1 Level, energy can be saved up to **10%** compared with normal mode.
- ② Press twice, reach ECO 2 level, energy can be saved up to **29%** compared with normal mode.
- ③ Press 3 times, reach ECO 3 level, energy can be saved up to **52%** compared with normal mode.

## BENEFIT

Save electricity, Save Money.

Test conditions: Indoor: 27°C/19°C, Outdoor: 35°C/24°C, Mode: COOL, Set Temperature: 16°C, Set fan speed: High speed

# FAST BINDING

## What is it

After purchasing air conditioner with WIFI function, users need to download APP called hOn, then bind AC with your phone. When the AC is bound with your phone, users can control the AC with phone, such as turn on the AC before going back home.

## How to use

There is a button on the remote controller, users can start binding by pressing this button. Hold on the "WIFI" button with Remote Controller more than 5s, until the WIFI symbol on the panel starts flashing, then you can start binding operation following process.

## BENEFIT

Fast binding, Power does not need to be cut off.

# R290

More Friendly To Nature

R290 with zero Ozone Depletion Potential and Low Global Warming Potential is Eco & Ozone-friendly, which reduces the harmful effects of the planet.

## TECHNOLOGY

### Eco Refrigerant

R290 (propane) is a natural refrigerant with ODP=0, GWP=3. Furthermore, it has excellent heat transmission efficiency.

Sealed box design

Design of explosion-proof components

Cabinet fire protection design

## BENEFIT

### Low Impact on Environment

R290 is natural refrigerant that does not affect the ozone layer, and if emitted to the environment does not represent any harm.

### Safe Operation

The refrigerant is sealed by an electrical box, which is reliable and in line with safety standards.

# TECHNOLOGY

## Thicker Conformal Coating

The PCB is covered with thicker conformal coating that is better than the conventional to protect against moisture, chemicals, insects and extreme temperatures.

## Compact Design

The design is smaller and takes less space than the conventional. It minimizes its influences to heat exchange efficiency of the condenser, and gives larger room to other components.

## FR-4 Material

The property of FR-4 material is flame-resistant and excelled in retaining its high mechanical values and electrical insulating qualities in both dry and humid conditions.

## Smart Power Module

Built-in high definition temperature sensor controls the working efficiency of the compressor to achieve superior cooling and heating performance.

# BENEFIT

## More Stable

The PCB works stably between 130V-264V, and endures the maximum surge voltage of 550SV. It enables air conditioner to provide consistent cooling in harsh environment.

## More Durable

Special design and better conformal coating protect its components against various elements that reduce its lifespan.

# 450SV

Endures the maximum surge voltage of 450SV.

# HYPER PCB

## More Stable More Durable

Provides consistent, powerful cooling with optimized design to cope with voltage fluctuations and unexpected damages that may lead to malfunction of the air conditioner.

# INVERTER PLUS

Integrates TLFM inverter control, PID inverter control and A-PAM inverter control to achieve smart control of the air conditioner, and in the meanwhile, maximize comfort, reliability and efficient performance.

## TECHNOLOGY

### TLFM Inverter Control

TLFM, or Triple Linkage Frequency Modulation, inverter control utilizes 3 different voltage controls to manage the optimal operation efficiency at every frequency phase.

### PID Inverter Control

PID, or Proportion Integration Differentiation, inverter control maximizes the working frequency before reaching the desired temperature, and after that, constantly makes real-time adjustments to match room air temperature with the desired temperature.

### A-PAM Inverter Control

A-PAM, or Adoption-Pulse Amplitude Modulation, inverter control automatically adjusts DC bus voltage in accordance with the compressor load, to increase operation voltage range.

## BENEFIT

### Energy-Saving Performance

Inverter Plus achieves high working efficiency at all frequency phases. The cooling/heating performance is much faster and more powerful.

### Cool, Comfortable Airflow

When the air conditioner is on, Inverter Plus reaches desired temperature much quicker than the conventional, and then maintain it with  $\pm 0.1$  C. precise temperature control.

### Reliability

Inverter Plus adjusts DC voltage to achieve stable operation between 120V-264V with ideal voltage control. In remote areas, users can enjoy cool air despite power fluctuations.

# ANTI-CORROSION

Special Processing More Durable

Protects air conditioner from the damaging caused by harsh environment in costal regions where the air is high in humidity, salt, chemicals and acid, to enhance the reliability and air conditioning performance.

## TECHNOLOGY

### Anti-Corrosive Blue Fin

The blue fin coil is highly effective in protecting the evaporator against dust, moisture and corrosive agents.

### Anti-Corrosive Tube Plate

Anti-corrosive properties are applied to the tube plate to increase durability.

## BENEFIT

### More Durable

The anti-corrosive design increases the durability of the AC, and saves our money from sending for service technicians.

### More Reliable

The anti-corrosive design prevents the copper tube damaging and gas leakage, to ensure the best air conditioning performance.

SGS Certification\*

\*According to ISO 9227:2017 Neutral Salt Spray Test, there is no visible blistering, swelling and detachment in anticorrosive copper elbow in 600H.  
\*\*According to ISO 9227:2017 Neutral Salt Spray Test, there is no visible blistering, swelling and detachment in Blue Aluminum Fin in 1000H.

# ULTIMATE COMFORT

Coanda Plus  
Airflow

Whispering Air

I Feel

Eco Sensor

As the constant advancement of air conditioning innovations, basic cooling and heating can no longer meet the evolving consumer demands. Haier provides the most comfortable air conditioning experiences to users.

The PID inverter technology enables air conditioner to reach desired temperature much quicker, and maintain it precisely. It delivers faster, and more comfortable cooling performance. With innovative Triple Airflow, we utilize unique dual-blade air deflector that generates stronger, more concentrated airflow, and send it to every corner of your room. We also provide whispering air conditioning that is quiet to 15db (A), and so much more.

## TECHNOLOGY

The Coanda plus airflow, made up of 3 parts under micro-perspective, delivers air in a more intuitive way, and forms the all-space circulation.

35°  
elevation

### Archimedean Spiral

The application of the dual-blade wind deflector structure creates the unique Archimedean spiral that directs the cold airflow to the ceiling with 35° elevation.

### Venturi Effect

The optimal pressure expansion duct that is narrow inside and wide outside between dual layers where Venturi Effect occurs when air flows through the duct. Thus, the airflow is instantly released at high speed.

### Supplemented Airflow

The airflow below the air deflector, absorbed tightly by the negative pressure generated by the faster airflow in-between, joins the main airflow and makes it even more stronger.

# COANDA PLUS AIRFLOW

Further, Faster, Stronger  
Cools Every Corner of the Room

Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.

## BENEFIT

### Ceiling Cooling

When the cooling mode is turned on, users can avoid direct exposure to the cold airflow blowing out of the air conditioner. Spread out to the floor of the room in a faster way.

### Carpet Heating

When the heating mode is turned on, the warm air is delivered directly to cover the floor. And then the warm air circulates to the whole space, and ensures the temperature is balanced at every corner of your room.

## TECHNOLOGY

### Optimized Air Duct

The air inlet is enlarged by 17%. The space between the evaporator and the front panel, and the air outlet are also enlarged. The optimization helps reduce the noise.

### Optimized Cross Flow Fan

The inclination angle of the fan is optimized to 25° to make sure the air flow more concentrated to minimize the noise.

### Special Electronic Control

The special electronic control system uses A-PAM DC inverter technology and DC fan motor. It provides high static pressure capability to minimize the operation noise of the indoor unit.

**17%**  
Air inlet is enlarged

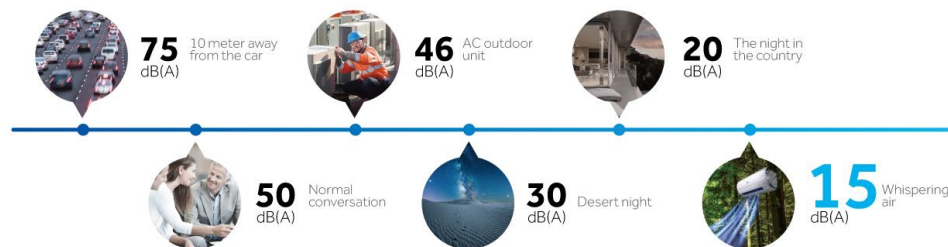

**25°**  
Inclination angle of the fan is optimized to

# WHISPERING AIR

Feel The Inner Peace

Have you ever disturbed by a noisy air conditioner humming all day and all night? In hot summer, powerful air conditioning is simply not enough. Quiet operation is equally important to have the inner peace of mind. Just enjoy both of them with Haier whispering air quiet to 15dB(A).\*

## BENEFIT

### Quiet, Cool Air

15dB(A) whispering air is even quieter than your imagination. While the air conditioner is working, you don't notice its existence. Therefore, you can concentrate on what you're doing.

# I FEEL

## One Button Intelligent Temperature Control, More Comfortable

Detect the temperature around you with the remote controller no matter where you are in the room. So the air conditioner will optimize its operation based on the information to provide better air conditioning experience.

## TECHNOLOGY

The performance of air conditioner may vary in different working conditions. If the room temperature is higher/lower than expected, you will feel uncomfortable. I FEEL is the least Haier can design but matter the most to your experience.

### Built-in Temperature Sensor

With the high definition temperature sensor built inside, the remote controller of the air conditioner can precisely monitor the temperature around.

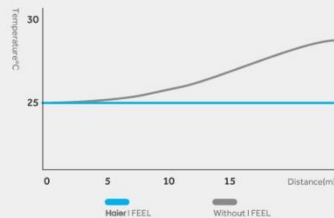

### Easy Control

With a click on I FEEL button on the remote controller, the air conditioner receives real-time temperature data and optimizes working conditions to match the desired temperature set by users.

## BENEFIT

### Comfortable Experience

The function optimizes the working conditions of air conditioner to deliver airflow at the best temperature that you need.

# ECO SENSOR

## Better Experience Higher Energy Efficiency

Detects the room air conditions and human activities in real-time monitoring. The air conditioner switches working mode based on detection to improve energy efficiency and enhance user experience.

## TECHNOLOGY

With two integrated modules, eco sensor detects two areas at the same time with angle up to 120° and distance as far as 8 meters. The sensor automatically analyzes the conditions human bodies in the room, and then adjusts the airflow to follow or avoid based on individual demands.

**120°**  
angle up to

**8** meters  
distance as far as

## BENEFIT

### Comfortable Experience

If there is people in the A area, the airflow will follow the people in A area when the **FOLLOW** mode is turned on.

If there is people in the B area, the airflow will avoid direct contact with the people in B area when **AVOID** mode is turned on.

If there are people identified in both A and B area, the air conditioner will automatically enter into left/right Swing mode.

### Energy-Saving

Eco sensor intelligently recognizes the existence of human bodies in the room. When the room is empty, the air conditioner is switched to energy-saving mode in 20 minutes.

# ULTIMATE FIT

Easy to Install

Easy to Disassemble

Super Match

Easy installation concerns a lot to installers' working efficiency, and it means more income to them during peak season. Haier Flexis air conditioner is truly easy to install with various optimized components. The optimized wall mounting plate gives detailed information for quick installation. Extended kickstand facilitates the installation with larger operation space. Meanwhile, it's easier to dismantle and maintain the air conditioner with easy access fan motor and control board.

**50%**  
Save 50% installation time

# EASY TO INSTALL

The More From Less

Concerns a lot to installer's working efficiency, and means more income to them during peak season as well. Haier air conditioner is truly easy to install with various optimized components.

## TECHNOLOGY

### Optimized Mounting Plate

Positioning specifications help fix the mounting plate and hang air conditioner at proper position.

### Optional Drain Piping

Offers left/right 2 drainage piping directions that give more flexibility to installation.

### Detachable Bottom Cover

Helps open the bottom to connect piping and wiring without using screw driver.

### Extended Kickstand

Makes the installation easy with larger operation area.

### Wider Tubing Space

Saves installation time with larger operation space for piping and wiring.

### External Switch

Turns on/off the air conditioner to check the working conditions without using remote controller.

# TECHNOLOGY

**28<sub>s</sub>**

Ultimate Disassembly\*

\*35-X AC only adopted one screw and takes only 28 seconds to remove it.

## One Screw

Snap-in design, less screws, less trouble  
Snap-in clasp design, concealed screws  
with exquisite appearance

## Easy Connected Waterpipe

Convenient disassembly of waterpipe design  
Easy connected design with left/right  
installation place  
Easy to plug in & out

## Easy Connected Terminals

Quick disassembly  
Only 3 terminals

**SGS Certification\***

\*The Verification of 5-star Easy-to-Clean Compliance is tested on Q/HKT J09230-2021 standard by SGS. The test report shows that the star rating of Haier Expert series air conditioner (refer to the test report for detailed model numbers) on the PCB disassembly, motor disassembly, and fan disassembly is 5-star which is the highest of the rating scale.

# BENEFIT

**80%**

Faster PCB Disassembly\*

**90%**

Faster Motor Disassembly\*

**100%**

Faster Fan Disassembly\*

# EASY TO DISASSEMBLE

Easy to Disassemble and Wash All Parts of the Air Way

Optimizes the structure of the indoor unit of air conditioner by simplifying the disassembly of core components including PCB, motor and fan, making the maintenance and cleaning easier than ever before.

# TECHNOLOGY

Universal outdoor unit for high-wall, console, cassette, convertible, duct.

Universal indoor unit for single or multi split outdoor unit.

# BENEFIT

## Independent Control

Super Match offers easy and smart control of the air conditioning in your house. You can control the temperature of all your rooms independently.

## Space-Saving Installation

With our Super Match solution, multiple indoor units can be connected to only one outdoor unit, instead of costing extra money to more outdoor units.

# SUPER MATCH

One Designed For All

Provides a full residential and light commercial air solutions for apartments, villas, shops and offices, etc. The stock management is made easy, and it saves your costs in warehouse, spare parts, and logistics.

# FEATURE GUIDE

## Ultimate Health

### Self-Clean

Freezes the evaporator with moisture in the air, and then removes away dirt in melting, ensuring clean air out of the air conditioner.

### 56°C Steri-Clean

Kills bacteria and viruses by heating the evaporator to 56°C high temperature for 30 minutes.

### Self-Hygiene

Applies silver nanoparticles into components where air circulation flows through to kill molds and bacteria that threaten our health.

### Easy to Clean

Marks another monumental step in the upgrade of healthy air innovations that ensures clean airflow out of air conditioner by allowing you to easily take out fan and filter for deep cleaning.

### Puri-Clean

Utilizes advanced IFD purification filter to remove all kinds of airborne pollutants and allergens with efficiency up to 99.9% while enjoy comfortable air conditioning.

### IFD Sterilization

Absorbs and kills virus and bacteria in field charging with efficiency up to 99%.

### UVC Sterilization

Emits UV light to sterilize the air passing through with efficiency up to 99998%.

### UVC Pro

Inhibits the reproduction of bacteria and sterilizes virus breaks down hydron and oxygen molecule and generates ionic group which inhibits bacteria and sterilizes virus after contacting. Indoor unit test certification ongoing.

### Nano-aqua Sterilization

Ionizes the air and releases positive and negative ions to sterilize the air with efficiency up to 97.5%.

### HAF Filter

Utilizes strong electrostatic charge on its surface to remove harmful micro-particles including dust, virus and bacteria to provide healthier environment.

### Blue Fin

Helps condensate flow smoothly via its hydrophilic and anti-corrosive properties. micro-particles including dust, virus and bacteria to provide healthier environment.

## Ultimate Smart

### Voice Control

Enjoy hands-free voice control via Haier smart air conditioners which are compatible with Amazon Alexa and Google Assistant.

### WiFi Control(hOn)

Download the Haier hOn App to an Apple or Android smart device, and link the equipment to the smart device for system control from whenever and wherever you want.

# FEATURE GUIDE

## Ultimate Power

	<b>A-PAM Control</b>	Automatically adjusts DC bus voltage in accordance with the compressor load to increase operation voltage range.		<b>Warm Start</b>	Blows no cold air when the unit is starting to work at heating mode, or change from cooling mode to heating mode.
	<b>PID Control</b>	Maximizes the working frequency before reaching the desired temperature, and, after that, constantly makes real-time adjustments to match room air temperature with the desired temperature.		<b>-30°C Heating</b>	Provides powerful heating performance in freezing winter with rotary compressor, DC motor, optimized bottom plate, electric heating wire and special programme, etc.
	<b>Turbo Cooling</b>	The special control program allows the motor to work at a higher frequency. It enables users to enjoy a cool room within a much shorter time. micro-particles including dust, virus and bacteria to provide healthier environment.		<b>-15°C Heating</b>	Provides powerful heating performance in cold winter with rotary compressor, etc.
	<b>Long Distance Airflow</b>	The indoor unit get improved with better motor, optimized fan and air duct. It enables the air conditioner blows longer air than before. properties. micro-particles including dust, virus and bacteria to provide healthier environment.		<b>-10°C Heating</b>	Works at low ambient temperature with high frequency rotary compressor, optimized refrigerant system and special defrosting programme, etc.
	<b>Strong Airflow</b>	With improved fan and air duct, the air conditioner supplies up to 25% more air volume than the conventional.		<b>DC Motor</b>	Ensures reliable operation with much higher energy saving and lower operation sound.
	<b>Hyper PCB</b>	The working voltage range is 130V-264V. It can start at the minimum of 130V, and withstand the maximum surge voltage of 450SV.		<b>DC Compressor</b>	Reduces energy loss and maximize power input to achieve much higher energy efficiency.
	<b>Anti-Corrosion</b>	Protect air conditioner from the damaging caused by harsh environment in costal regions where the air is high in humidity, salt, chemicals and acid, to enhance the reliability and air conditioning performance.		<b>Smart Defrosting</b>	Works only when necessary to reduce energy waste, and provide better experience by reducing defrosting time.
				<b>Indoor 5-step Fan Speed</b>	Works at powerful/high/middle/low/quiet speed to give users more choices in airflow control.

# FEATURE GUIDE

## Double Horizontal Flaps

Supplies airflow in more directions to enhance user experience.

## Auto Vertical Airflow

Moves vertically and works with horizontal flaps to achieve various air angle.

## 3-minute Protection

Helps compressor avoid unexpected damages to have longer life.

## Auto Restart

Returns operation to previous air conditioner settings after a sudden power break.

## Wide Voltage Operation

Enables inverter air conditioner to start working from 150V-264V.

## 88 Display

Shows clearly the real-time room temperature or desired temperature on the panel.

## Auto Mode

Helps air conditioner choose cooling or heating automatically based on desired temperature and ambient temperature.

## Golden Airflow

With unique air circulation system, conventional 10°C cold airflow is changed to 23°C golden airflow.

## Integrated Structure

Combines the bottom base, drain pan and frame casing together to level up product reliability and lower vibration.

## Constant 10°C Heating

Works when room temperature drops below 10°C to provide winter protection for pipes, unoccupied summer house, garage and basement.

## Low Watt Standby

Lowers stand-by power consumption from 8W to 1W by optimizing control programme.

## Integrated Valve Cover

Protects both wiring terminal block and globe valves, and enhances beauty.

## Outdoor 7-step Fan Speed

Makes adjustments according to the control of ambient sensor and tubing sensor to optimize heat exchange performance and improve energy efficiency.

## Ultimate Comfort

## Coanda Plus Airflow

Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.

## Whispering Air

Ensures your peace of mind with optimized fan, air duct and motor.

# FEATURE GUIDE

**Precise Dehumidification** Controls your room air humidity at ideal level to keep the air clean and comfortable.

**Precise Temperature Control** Allows users to adjust temperature by 0.5°C to achieve much more precise comfort and higher energy saving.

**Eco Sensor** Detects the room air conditions and human activities in real-time monitoring, and switches working mode to achieve higher energy efficiency and provide better experience to users.

**Dry Function** Adjusts fan speed automatically according to room air temperature to achieve either mild dehumidification or strong dehumidification.

**3D Airflow** Delivers comfortable airflow to every corner of your room with the constant horizontal and vertical movements of airflow blades.

**Intelligent Air** Directs the airflow upwards at cooling mode, and downwards at heating mode to provide better air conditioning performance.

**Sleep Mode** Provides maximum comfort and energy saving during your good night's sleep.

**I Feel** Haier air conditioner can control temperature through a remote controller and perceive the room temperature accurately.

## Ultimate Fit

**Positioning Specifications** Help fix the mounting plate and hang air conditioner at proper position.

**Extended Kickstand** Makes the installation easy with larger operation area to install and service.

**Easy Access Control Board** Simplifies dismounting and maintenance without disassembling casing.

**Wider Tubing Space** Saves installation time with larger operation space for piping and wiring.

**Easy Access Fan Motor** Simplifies dismounting and maintenance without disassembling evaporator.

**Detachable Bottom Cover** Helps open the bottom to connect piping and wiring without screwdriver.

**Easy to Disassemble** Optimizes the structure of the indoor unit of air conditioner by simplifying the disassembly of core components including PCB, motor and fan, making the maintenance and cleaning easier than ever before.

# FEATURE GUIDE

## Self-diagnosis

Shows the error code on the LED display of the indoor unit to make the maintenance easier.

## Super Match

Realizes 100% free combination between residential indoor unit and light commercial outdoor unit, to make the sales management more easier and efficient.\*

\*The Flexis outdoor unit can be linked to light commercial indoor unit. Other outdoor units of residential models can't.

## On-off Card

When the user returns to the hotel or apartment room, they can turn on the air conditioner by inserting the card directly without using the remote control, which is convenient and energy saving.

## Central Control

Haier air conditioner can be connected to the central controller, operated by the central controller, which can set the basic mode of air conditioner.

Deliver Ultimate Airflow

#### Self-Clean

Freezes the evaporator with moisture in the air, and then removes away dirt in melting, ensuring clean air out of the air conditioner.

#### Wi-Fi Control (hOn)

Download the Haier hOn App to an Apple or Android smart device, and link the equipment to the smart device for system control from whenever and wherever you want.

#### Coanda Plus Airflow

Makes the wind out of the air conditioner further, faster, and stronger, so that the cool air can be evenly delivered to every corner of the room.

# Portable

Haier Air Conditioning

**Strong Airflow**

Cools down the whole room with auto-swing function.

**Dry Function**

Adjusts the fan speed to achieve dehumidification.

**Self-Diagnosis**

Shows error code when it malfunctions.

# Dehumidifier

Haier Air Conditioning

## Fast Drying

Lowers room air humidity and dries clothes quickly.

## Large Capacity

Uses 2L water tank and sends alert when it is full.

## Compact Design

Takes less space and is easier to move.

# Dehumidifier

Moisture Managed, Comfort Amplified

#### Smart Dehum

The dehumidifier will automatically adjust the fan speed based on the real humidity index of the room.

#### Laundry Mode

By activating this function, the humidifier adjusts the fan to max speed, allowing to dry clothes in much less time.

#### Quiet 52dB(A)

When in quiet mode, the dehumidifier works with the fan at minimum speed and minimum noise levels. In this way, you can use it at night, too, or simply while relaxing.

# Dehumidifier

## KEY FEATURES

Auto-swing function, speed up drying clothes.	Water full alarm function	Auto restart function.	Low noise.
LED display.	High-capacity water tank design 2.0 liter.	Casters for easily moving.	Concise appearance design, no screws on the outside.
Small body with high loading quantity, save logistics cost.	High and low two wind speed adjustable.	Good dehumidifying capacity, long distance air supply.	One button auto-dehumidifying function.
Automatically draining function.	24-hour timer function.	Power failure memory function.
